

20% more capacity using 20% less fuel.  
Those aren't projections.  
**THOSE ARE RESULTS.**

*Our powerful AGCO  
POWER™ 9.8L engine  
is inline with the  
rotor for more direct  
power transfer.*

WHEN our first new Massey Ferguson® combines (MF9540 and MF9560) came off the line, we handed them over to real farmers working real harvests. Acre after acre, they achieved some amazing results: 20% more capacity while using 20% less fuel.\* They're dramatic numbers because we incorporated dramatic ideas into these combines, from the drives to the new Trident™ Processor to our innovative V-Cool™ System. We invite you to learn more. Visit your dealer soon or [masseyferguson.us](http://masseyferguson.us).

\*Comparative tests between MF9540 and MF9795 or MF9560 and MF9895. Results may vary depending on crop and conditions.

**MASSEY FERGUSON** is a worldwide brand of AGCO.
