

Heavy-duty performance is our specialty.

### **New HD Series 2600 High Clearance tractors.**

Introducing a robust new line of Massey Ferguson® tractors that are virtually two tractors in one. Ranging from 82 to 97 engine horsepower, each HD Series High Clearance model is a fully featured, high-clearance, specialty machine that offers all the heavy-duty performance of our HD Series. While these rugged machines are ideal for fruit and vegetable crops, their 50-inch tires can also be switched to do standard-height work with loaders and implements. Either way, they also feature a roomier operator's area with less clutter. Massey Ferguson HD Series 2600 High Clearance tractors. Designed to raise expectations. Stop by soon and see for yourself.
