White Out

Snow-removal tools for compacts and sub-compacts are a snap to attach and use, and they'll save you time, money and a lot of backache.

BY KAREN KEB

LOOKING TO BLOW, BLADE OR SWEEP SOME SNOW this winter? Here's a rundown of three implements that'll not only move it, but move it fast.

If you're running a sub-compact or utility tractor, the Massey Ferguson® 2360 or 1410 shaft-driven, front-mount snow blowers will have you cleared in no time. Choose a front-mounted blade if you have lots of open space in which to push the snow; the MF2330 and MF1535 rotary brooms come in handy for sweeping light snow from walks and drives. >>
