Welcome to cloud ten.

The unprecedented new Massey Ferguson® 1600 Series. It's about work. It's about style. It's about fun. It's about time. This completely new generation of compact tractors simply outshines them all. With a heightened sense of style and breakthrough ergonomics, it goes above and beyond, delivering an entirely new level of reliability along with a convenient, down-to-earth approach to servicing. There's really only one way to describe the 1600 Series experience. When you're on one of these – the sky's the limit.

The new 1600 Series offers six models ranging from 35 to 60 gross engine horsepower. And for the first time ever, factory-installed cabs are available on all models. See your dealer or visit us online at masseyferguson.com

Now, looking over your shoulder and working with implements is a breeze, thanks to our right-hand, fender-mounted controls. This simple, intelligent innovation actually reduces fatigue so you can work (or play) all day.
