

HUNGRY for work, not fuel.

EVERYTHING YOU WANT in a row crop tractor is on our 7600 and 8600 Series. Like our Dyna-VT™ stepless, clutchless CVT and e3™ SCR emissions system. Massey Ferguson created both technologies. And with them working with our DTM power management system, you get the most fuel efficient tractor going. See your dealer for a demo. Or to learn more visit ManUpWithMassey.com.

“The CVT and DTM power management make this tractor. I see the fuel savings all day. It does everything we want it to do and more.” – Colby Johnson, 4,000 acres of wheat and alfalfa, Oregon

Dyna-VT not available on MF7614.
