

# SOMETIMES RUNNING A FARM CAN FEEL A LOT LIKE CHASING A DREAM.

Heeding the call of the land requires a tractor strong enough to do the near-impossible, day in and day out. Like the reliable Massey Ferguson 8700 Series, which sports the new twin-turbocharged AGCO POWER™ 84 engine with 30 additional horsepower. But it's an efficient beast, too. The Dynamic Tractor Management feature ensures the most efficient power settings, from hay work to hauling to TMR mixer. Add to that its smooth, Dyna-VT™ transmission, and you've got one less thing to worry about on the farm. Dig a little deeper at [masseyferguson.us/8700](http://masseyferguson.us/8700).
